

ENTERPRISE TRANSFORMATION

When your company is confronted with the need for foundational change, whether it is focused on people, processes or technology, Kenway Consulting will guide you through the transformation.

HOW KENWAY DOES IT

ENABLING PROFOUND CHANGE ACROSS PEOPLE, PROCESSES AND TECHNOLOGY

When an organization embarks on a transformational change, planning and execution are critical, and Kenway has a proven framework to guide you through the entire journey. We not only recommend a path forward, but we roll up our sleeves and help you navigate the journey successfully. Processes need to be re-engineered, IT's strategy must be aligned with that of the business, governance must be in place to ensure accountability and change management is critical to the organization's adoption.

WHAT KENWAY PROVIDES

We are uniquely positioned to help you with:

- Support for mergers and acquisitions
- IT strategy and governance assessments and implementations
- Legacy system upgrades
- Buy vs. build assessments
- Vendor/software selections
- Project rescue efforts

What you can expect:

- Clarity of vision
- Alignment of IT and business strategy
- Accountability
- Consistency and cultural adoption
